Creative and detail-oriented UI/UX Designer with 3 years of experience crafting intuitive, user-centered digital experiences for web and mobile platforms. Skilled in wireframing, prototyping, and usability testing, with a strong command of Figma, Adobe XD, and modern design systems. Passionate about transforming complex ideas into clean, accessible, and engaging interfaces that align with business goals and enhance user satisfaction.

## Professional Experience

### Junior UI/UX Designer

JRK Consulting Services, Chennai (September 2023 – Present)

- Designed intuitive and visually engaging user interfaces for web and mobile applications, ensuring usability, consistency, and brand alignment.
- Translated complex business requirements into seamless user journeys using wireframes, user flows, and interactive prototypes in Figma and Adobe XD.
- Collaborated with cross-functional development teams to guarantee pixel-perfect, responsive, and scalable implementation across devices.

### Trainee UI/UX Designer

JRK Consulting Services, Chennai (June 2023 – September 2023)

- Collaborated with senior designers to create user-friendly, visually cohesive prototypes and mockups for a variety of web and mobile projects.
- Acquired hands-on experience in front-end development, transforming UI concepts into responsive interfaces using HTML, CSS, JavaScript, and Flutter.
- Contributed to the development of design systems and style guides, ensuring visual consistency and brand coherence across all deliverables.

## Key Achievements

- Designed and developed responsive, user-focused interfaces for web and mobile applications using Angular and Flutter.
- Built an interactive car booking, Redesign Websites, e-commerce Website hosted on GitHub, demonstrating strong proficiency in Angular.js and Gsap animations.
- Delivered 15+ front-end web and 12+ Flutter UI projects with an emphasis on accessibility, intuitive navigation, and visual consistency.
- Collaborated with developers and stakeholders to ensure design-to-code precision, reducing rework and iteration cycles by 20%.
